3. Messages from the People at Helm

Message from the Honourable Chancellor

Heir to a glorious tradition of learning and scholarship, India today is modern, young and focused on reinventing itself to take its rightful place among the comity of nations. Demographically speaking, every second Indian is less than 25 years of age today. There is an insatiable thirst for knowledge, skills and entrepreneurship among the youth of India, as witnessed in the explosion of under-graduate and post-graduate courses, especially professional. Their needs can be satisfied only by quality educational institutions with requisite standards in every respect. Delivering anything less will be unjust and unfair to the aspirations of thousands of young hopefuls. We are acutely conscious of our responsibilities in this regard and have been striving to render quality education with values. It will be our prime concern to ensure that at SBU, Ranchi students find complete self-expression in the ambience of the university. We aspire to render every help to make their dreams come true. It gives me great pleasure to commend SBU to the youth of India!
